

LASH + BROW PREP GUIDE

Lash Extensions • Keratin Lash Lift • Brow Lamination • Brow Tint

Elevated Beauty. Intentional Artistry.

Please read before your appointment. Proper preparation helps us create beautiful results while keeping your eyes, lashes and skin comfortable and protected.

A Little Prep Goes a Long Way

Your results start before your appointment. Arriving prepared helps your products perform properly, keeps the service running smoothly, and gives us the best possible canvas for your treatment.

BEFORE YOUR LASH APPOINTMENT

- Arrive with clean lashes and eye area. Remove eye makeup, mascara, eyeliner and oily residue before your appointment.
- Avoid heavy eye creams, facial oils and oil-based makeup removers around the eyes on the day of your service.
- If you wear contact lenses, please bring your contact lens case and solution OR wear glasses so your lenses can be removed comfortably during the service.
- Avoid caffeine if it makes your eyes flutter or makes it difficult for you to keep your eyes relaxed.
- Please arrive on time. Lash services require your eyes to remain closed for an extended period.

LASH EXTENSIONS — IMPORTANT

- Do not arrive with mascara or strip lashes applied.
- Do not curl your natural lashes immediately before your appointment.
- If you currently have extensions from another artist, please contact Elio Beauty Co. before booking. Foreign fills may not be suitable.
- If your eyes are red, swollen, irritated, watery, infected or have unusual discharge, please reschedule and contact us.
- Let us know about any recent eye surgery, eye treatments, lash reactions or changes in your eye health.

KERATIN LASH LIFT + TINT

- Arrive with completely clean lashes and no mascara or eye makeup.
- Avoid oil-heavy products around the eyes before your appointment.
- Do not use a lash curler immediately before your service.
- If your lashes have been recently lifted, over-processed or damaged, let us know before your appointment so we can assess suitability.

BROW LAMINATION + BROW TINT

- Arrive with clean brows and minimal or no brow makeup.
- Avoid aggressive exfoliation, retinoids and strong active skincare directly around the brows immediately before your service.
- Do not wax, thread or otherwise aggressively remove brow hair immediately before lamination or tinting.

- If the skin around your brows is sunburned, irritated, peeling or compromised, contact us before your appointment.

PLEASE DISCLOSE

- Current eye infections, irritation or significant dry-eye symptoms.
- Known allergies or previous reactions to lash, tint, lamination, adhesive, tape or eye products.
- Recent eye surgery or procedures.
- Current lash extensions, recent lash lift/lamination, or recent reactions.
- Any medications, skincare or treatments that may affect the skin or hair in the treatment area.

SAFETY NOTE

Your safety always comes first. If a contraindication is present or your eyes, lashes or skin are not in an appropriate condition for the scheduled service, Elio Beauty Co. reserves the right to modify, postpone or decline the service.
